WELCOME TO HSFC

Hucknall Sixth Form Centre is a vibrant hub of education located in the heart of Hucknall, welcoming students from all over Nottinghamshire.

Our dedicated post-16 facilities include well-equipped classrooms, independent study zones, breakout spaces and a café for students to study and socialise with their friends. We work in partnership with the National Church of England Academy, The Holgate Academy and Queen Elizabeth's Academy. Students also come to study with us from a wide range of schools and academies in the region.

With over 35 courses available, there is something to interest, engage and suit all requirements. If your onward goal is to go to university, begin employment or take on an apprenticeship, we will support you to get there. We are big enough to offer a broad range of courses, yet small enough to offer a sense of belonging to a friendly community of students and staff.

We are here to help you become your future self, to be successful on your chosen career. The world of work is changing rapidly, we're here to help you find your pathway through the myriad of options. Together with your qualifications we offer a broad range of enrichment activities to help you develop new skills, resilience, and the confidence to succeed beyond sixth form.

Our key values

Believe. Belong. Become.

The key to success is self-belief – we will help you identify milestones that will help you achieve your future career pathway. Knowing what you want to achieve will motivate you to succeed. You will be supported by our dedicated staff who will instil good studying habits, time management skills, and give you the confidence and focus to achieve your goal.

To find out more about how we can support your aspirations, we would be delighted to welcome you here and show you around our impressive facilities.

I look forward to meeting you.

Paul Simpson
Head of Hucknall Sixth Form Centre

Mrs Kelly Wall
Deputy Head

Miss Louise Elliot
Deputy Head

Miss Sharon Hall
Deputy Head

'We look forward to meeting you and supporting your future aspirations.'

STUDY WITH US

Our students travel from across Nottinghamshire to join a post-16 community with strong academic principles and values, dedicated to achievement and positive outcomes.

We aim for all our students to be successful and develop into professional, educated young people. Our intention is that students will achieve to the best of their abilities and either continue their studies at university, in higher or degree apprenticeships, or move directly into employment.

The centre is based in a purpose built academic building which was refurbished in 2019, creating a fresh and vibrant facility designed for learning, independent study and personal development. This outstanding location is supported by specialist facilities at our partner academies, enabling specific subject areas to expand and enhance students' understanding of their course.

ONWARD DESTINATION

75% of students went into higher education

16% of students moved into apprenticeships and training

9% of students went into employment

EXAM SUCCESS

38% of students achieved A*-B at A2 or equivalent

Pass rate

99%

at A2 or equivalent

HUCKNALL SIXTH FORM CENTRE

10 REASONS WHY

- 1. College style environment** – retaining close links to our partner academies
- 2. Results – success in supporting students onto university** (including Russell Group and Oxbridge), apprenticeships and employment
- 3. All students take the Extended Project Qualification** in year 13 – highly valued by universities and businesses
- 4. Supportive staff** and an onsite counsellor
- 5. Central Hucknall location** – easy access to bus, tram and train routes
- 6. Variety of trips** to UCAS fairs, universities, employers, London, CERN, Berlin, Krakow and more...
- 7. Comprehensive personal development and enrichment programme**
- 8. Top-class facilities** including a large Learning Resource Centre, independent study spaces and a student café
- 9. Fantastic careers advice and guidance**, including access to Unifrog
- 10. Part of a successful multi-academy trust** – collaborative approach to great teaching, learning and support for students

OUR VISION AND VALUES

OUR **KEY** ELEMENTS REQUIRED FOR **SUCCESS** ARE TO:

- | Believe
- | Belong
- | Become

The key to success in sixth form is self-belief. Knowing that you can achieve your goal will help you to succeed.

We also support students who wish to focus on their own faith – two of our partner academies provide chaplaincy for students of all faiths (and none).

Success is very much about teamwork. At Hucknall Sixth Form Centre you will belong to a team dedicated to supporting your development in both the academic and pastoral aspects of sixth form life.

Ultimately, we want you to be successful in your chosen career and to develop the resilience to lead a happy and fulfilled life.

STUDENT LIFE

.....

Hucknall town centre has a vibrant community with plenty of places to eat and drink, together with great venues to socialise with friends.

As the sixth form is centrally located, you'll find yourself within easy reach of a range of transport links – so, you will be able to jump on a tram, train or bus from Hucknall and be at the heart of Nottingham city centre within 20 minutes.

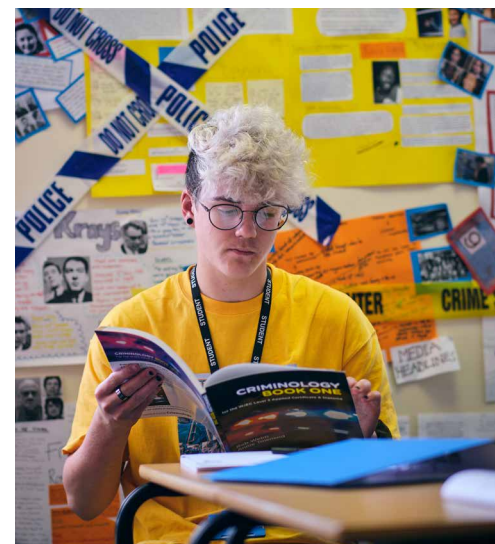

Nottingham is a dynamic and student-friendly city with a host of cultural, sporting and shopping venues on offer. Whether you fancy the cinema, a bite to eat, a music gig or to join a sports club, you won't be short of opportunities to enhance your sixth form experience.

We work closely with local Hucknall churches and other community organisations, and students are encouraged to get actively involved. There is a strong chaplaincy team who provide pastoral support and lead acts of worship.

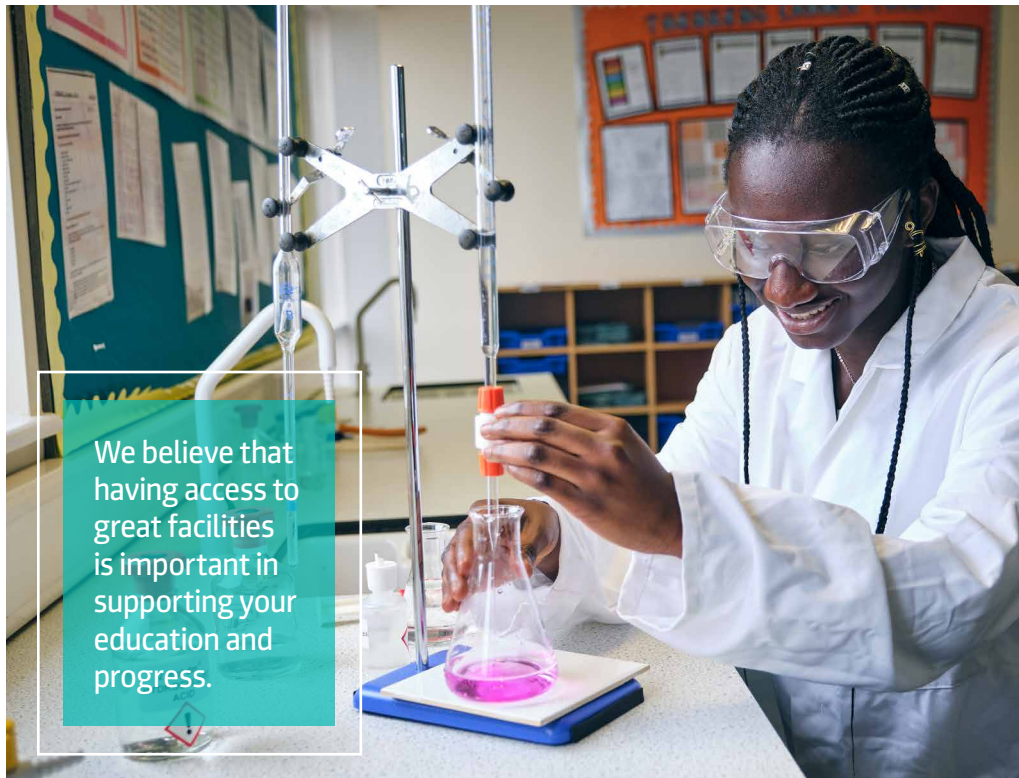

Additionally we engage in a range of charity work at Hucknall Sixth Form Centre. Students have organised and led on hosting Macmillan coffee mornings, and have fundraised for a variety of nominated local and national charities. All students are invited to get involved and are reminded about the importance of charity work in helping those less fortunate in our community and further afield.

A FULLY SUPPORTIVE EDUCATION COMMUNITY

FACILITIES

We believe that having access to great facilities is important in supporting your education and progress.

Our educational spaces for lessons are light and spacious, and our Learning Resource Centre is a great area for independent study. Together with state-of-the-art science laboratories and preparation rooms, modern classrooms, communal spaces and an inviting reception area, you will have the opportunity to develop in an environment conducive to learning.

We also know how important it is to socialise with friends, and our café and breakout spaces means that you can grab a bite to eat, catch up with friends, and study together as a group over a cup of coffee.

For those students who have passed their driving test, we also have free car parking on site.

CATCH UP WITH
FRIENDS
AND STUDY
TOGETHER
OVER A CUP
OF COFFEE

PERSONAL DEVELOPMENT AND ENRICHMENT

We encourage all students to develop and enhance skills essential to moving into higher education and employment – we know that means much more than just academic achievement alone.

You will have access to opportunities both within and outside of lessons, so you can learn and hone new skills, or further develop your existing talents, to support you in life beyond sixth form.

Each week we timetable an enrichment period, in which we invite external speakers in to deliver inspiring and informative sessions. These offer thought provoking discussion, reflection and independent research, and have previously included safe driving, drugs and alcohol, safe sex, the importance of voting, banking, and higher education.

Visits and international travel

Linked to a number of courses are opportunities to experience new cultures and environments, and to discover how you can apply your studies in real life contexts. We arrange visits throughout the year, both in the UK and further afield. In previous years, our students have ventured to Switzerland, Germany, Poland, Spain and France to name a few – putting their learning and knowledge into practice.

The Ogden Trust also provides specific grants for A Level physics students to visit CERN in Switzerland at two-year intervals, with funding allocated to groups of academies who work in close collaboration for the benefit of the students.

You will also be given the opportunity to visit some of the country's top universities to get a feel for what to expect from an academic, personal development and social perspective.

Work experience

In year 12, you will complete work experience related to your career of choice or the education pathway you wish to follow. You will be expected to select, apply and interview for roles, and represent both yourself and Hucknall Sixth Form Centre in a professional, business-like manner.

We encourage personal development and expect all students to participate in at least one aspect of our enrichment programme, which includes but is not limited to

- | debate society
- | Young Engineers
- | student council
- | self-defence for women
- | first-aid
- | sports and fitness
- | subject and literacy mentoring
- | performing arts
- | charity work
- | Young Enterprise

We encourage all of our students to develop the skills essential to moving into higher education and employment.

STAND OUT FROM THE CROWD

THE EXTENDED PROJECT QUALIFICATION

All of our year 13 students complete the Extended Project Qualification (EPQ) as part of their ongoing development and study. The EPQ is highly valued by universities and business as evidence of a range of transferable skills required for higher education and employment.

In the EPQ, you will have the opportunity to choose your own topic area to research, ideally linked to your future studies or career aspirations. You will produce either a 5,000 word research dissertation on this topic or develop an artefact with a 2,000 word research report. You will then plan, research, develop and evaluate your project throughout the year. This is supported by sessions which build on skills such as independent study and research, organisation, time management, presentation skills and reflection.

Successful past dissertation EPQ projects include diverse projects on business marketing, psychological and biological research into Alzheimer's and autism, causes of the Spanish Civil War, causes of the 2008 economic crash, and the development of paramedic science and dentistry. Examples of excellent artefact EPQ projects include architectural design, jewellery making, photography, creative writing and computer programming.

The EPQ will give you a sense of achievement, an opportunity for individual research on a topic you are interested in and a very valuable qualification for inclusion on UCAS or job applications.

Education breeds
confidence.
Confidence breeds
hope.
Hope breeds
peace.

CONFUCIUS

ADVICE AND GUIDANCE

We have a defined support system for all of our students, helping you to achieve your potential and aspire to reach further. We offer both pastoral and academic support, with guidance on financial, educational and career matters.

You will receive regular updates on your progress from your course teachers and personal tutors. Based on your GCSE performance, we set all our students realistic yet challenging targets to reach their potential in their chosen courses. Support is tailored to ensure you can achieve your goals and can aspire to stretch yourself academically. We will also provide extra support where required.

You will be allocated a personal tutor for the duration of your time with us. You will meet your tutor daily to discuss academic and personal progress, and they will support you through the process of university applications, apprenticeships or work placements.

You can also get support from dedicated learning mentors, who provide advice and guidance on issues, concerns and any questions you may have. This could involve wanting to change courses, obtaining information about higher education or training options, discussing problems outside of the sixth form setting or just simply needing to talk. There is also dedicated careers advice, information and guidance available in the Learning Resource Centre.

Funding

The government provides a funded 16-19 Bursary Fund for eligible students. This provides financial support to help cover the costs associated with further study, such as educational resources or equipment, transport and food for the days you attend sixth form, and professional clothing.

These bursaries provide students with access to up to £1,200 of funding for each year of their sixth form study. There are two types of bursary available, the vulnerable bursary and the discretionary bursary – students eligible for a bursary also receive an electronic device (such as a tablet), to further aid their learning during their time with us.

If you feel that you might meet the criteria to be considered for the 16-19 Bursary Fund, call us on **0115 9681657** and we will answer your questions about the funding and application process..

For further information, visit www.hsfc-ac.org.uk/students/funding-and-bursary or www.gov.uk/1619-bursary-fund

PAST SUCCESS

George Newton

A student of many talents, George accomplished great things during his time at Hucknall Sixth Form Centre – academically and personally. His achievements have ensured he has reached his high aspirations, progressing to a place at Oxford University.

He said: “I chose this sixth form as I was impressed with the range of academic subjects, and I was familiar with the staff and how they could support my progress. Many of my friends were coming here too, so the transition from secondary was easy and felt like a good step on my educational journey.”

Hard work and focus were key themes in George’s time at sixth form, and this dedication to his studies resulted in a hugely impressive set of results, with four A* grades, confirming his place at Oxford to study Spanish and Portuguese. George, who speaks six languages, hopes to use this learning to set up language schools around Europe in the future, having already been tutoring younger students in foreign languages in his spare time.

George’s advice to anyone considering studying at HSFC is: “Do what feels right for you. Everyone is different – work out which pathway is best for you and follow that. Staff will support and guide you, but hard work is essential too. I have achieved everything I wanted to here, and enjoyed every moment of it!”

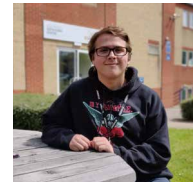

Lisa Moyo

Lisa enjoyed a successful time in sixth form, achieving great things with her studies leading to exciting opportunities to carry on her education. Achieving top grades, she secured her first choice at higher education, now studying paramedicine at De Montfort University.

Crediting the guidance offered by staff for creating an environment to succeed, Lisa has been extremely driven by her goals and engaged with a wealth of enrichment opportunities to further her development.

She said: “I have a passion for leadership and got involved in the student council together with accessing a Christian Young Leaders qualification outside of my studies. This, along with support from staff, has developed my confidence and given me new skills to apply to my studies and life in general – teachers are so responsive to any questions or issues you have, and the technology facilities at the centre enable you to be connected to them quickly.”

Lisa’s ambitions to become a paramedic were also clear in her Extended Project Qualification, where she produced a dissertation on the history of paramedic science. “Undertaking this project helped me to develop my research skills and academic discipline, and I really enjoyed completing it. The skills learned will be crucial to the step up to university.”

Jason Yemm

Jason took a step away from his secondary academy by moving to study at Hucknall, with the decision proving to be a positive move as he achieved his education goals during his time here. He was rewarded with good grades, and is now studying criminology and law at Nottingham Trent University.

Despite not knowing many faces when he first walked through the door at HSFC, Jason was impressed with the community of students and the support from staff. He said: “The fact that all students here have the mind-set to study hard makes it easy to get to know people – this boosted my confidence. All the staff were also very friendly and together with giving great feedback in lessons, were on hand to offer advice and guidance.”

Jason really enjoyed the Extended Project Qualification, on which he did a dissertation based on ethics and family law, linking into his intended education and career pathway. He said: “Developing knowledge of how to write a dissertation properly, cite it and reference it will be extremely useful for my time at university. A really valuable experience. The support given by teaching staff and my friends here has enabled my time here to be so successful.”

Alex Brown

Former Holgate Academy student Alex has always known which direction he wanted his education and career path to go. By achieving brilliant results at Hucknall Sixth Form Centre he is now well on the way there.

Having always had ambitions to work in politics, he was able to study A Levels that would allow him to pursue this dream. He says, “I chose history, politics, English literature as these fit with my chosen pathway. My aspiration is to work within government and eventually work my way up to being Prime Minister! Alongside my studies I have been doing voluntary work for local MP Mark Spencer, and have really enjoyed this.”

Showing great focus in his studies, he also engaged in enrichment opportunities to further challenge himself. He was a key member of the debating society, showcasing his knowledge, research and presentation skills by successfully competing against other sixth forms. Achieving an impressive A*, two As and a B, Alex has moved on to study politics at the London School of Economics. Of his time at HSFC, he says: “I chose to come here because I wanted to be with students and staff I knew but being away from the academy gave me independence in a college-like environment. I have thrived here – students all work hard and the staff offer support when you need it and treat you like adults.”

YOUR EDUCATION

The following section details all of the courses currently on offer at the Hucknall Sixth Form Centre. There are a wide range of subjects to choose from, and you will have your own tailored study programme.

The information in this section answers three key questions. The answer to these will enable you to make an informed decision about how studying that course will benefit you and your future goals. The course directory outlines what you will be studying and where it could take you in the future. If you wish to find out more about a specific course, including how you will be assessed, full details can be found on the HSFC website.

Why?

The key reasons for choosing to study this course.

What?

Details of what you will be studying.

Where?

The potential higher education and/or career paths you may take by studying this subject.

YOUR PATHWAYS

Students at Hucknall Sixth Form Centre will follow one of four programmes of study which are detailed below.

Entry Criteria	Description	Possible Destinations
GCSE APS* of 7 or higher	<ul style="list-style-type: none"> • Applications for medicine/veterinary/dentistry or Oxbridge and other Russell Group university courses • At least two facilitating subjects (mathematics, further mathematics, English literature, physics, biology, chemistry, geography, history, MFL) • Timetabled enrichment • Enrichment choice • Tutor time • Work experience (Y12 only) 	Medicine/veterinary/dentistry Oxbridge Russell Group university University degree Higher and degree apprenticeship
GCSE APS of 6 or higher	<ul style="list-style-type: none"> • Consider facilitating subjects (mathematics, further mathematics, English literature, physics, biology, chemistry, geography, history, MFL), especially if thinking of a Russell Group university • Timetabled enrichment • Enrichment choice • Tutor time • Work experience (Y12 only) 	Russell Group university University degree Higher and degree apprenticeship
GCSE APS of 5 or higher	<ul style="list-style-type: none"> • A mixture of applied Level 3 and A Level courses • Timetabled enrichment • Enrichment choice • Tutor time • Work experience (Y12 only) 	University degree Higher and degree apprenticeship
GCSE APS of 4 or higher	<ul style="list-style-type: none"> • Mainly applied Level 3 courses • Timetabled enrichment • Enrichment choice • Tutor time • Work experience (Y12 only) 	University degree University foundation degree Advanced apprenticeship

*APS – average point score

Applied law

(BTEC Level 3 – certificate/extended certificate)

Applied law is an engaging course providing students an introduction to the legal sector. The course covers a wide range of legal issues including civil law, criminal law, the legal system, and how all of these can be applied and interpreted. You will discover how laws are created and passed, different types of offences and sentences, together with learning about the court system and professions in the sector.

This course provides the basis of an excellent route for learners to pursue higher education study in law and to aspire to a career in the legal sector.

Entry requirements:

Grade 4 in English language with four other GCSEs at grade 4 (or equivalent) or above

Examination board: Pearson
Specification: National certificate 601/9042/5

Find out more at: www.hsfc-ac.org.uk/applied-law

Applied science

(BTEC Level 3)

The course is designed to support students who wish to follow a pathway in science and combines well with study in chemistry, physics, maths and psychology. You will learn about the principles and application of science, with a hands-on emphasis to learning about scientific procedures, investigations and techniques. All students will choose a specialist unit in physics, chemistry or biology as part of the course, together with covering a broad range of topics including cells and energy usage.

For students wishing to go into the fields of forensic science and maths, or look towards a career as a science technician, this is a superb course to take alongside other subjects.

Find out more at: www.hsfc-ac.org.uk/applied-science

Entry requirements:

GCSE grade 4-4 in science or equivalent

Examination board: Edexcel
Specification: NC419

Art – fine

(A Level and AS)

Our fine art course supports students to explore their creativity and encourages investigation and experimentation of materials, ideas, feelings and media. You will develop your knowledge of materials, technology and artists, learning about new concepts and building your own style and methods. The course covers sustainability, forms of presentation for different audiences, together with a focus on both historical and contemporary themes.

For individuals wishing to study at a higher level in art, design and illustration this diverse and creative course will support those future aspirations.

Find out more at: www.hsfc-ac.org.uk/art-fine

Entry requirements:

GCSE grade 5 in art. If you did not study art at GCSE, you will need to provide a portfolio of work to be assessed prior to signing up

Examination board: AQA
Specification: 7242/7202

Biology

(A Level and AS)

An interesting and inspiring course, A Level biology will nurture your passion for this specific science subject. You will learn about a wide variety of topics covering biological molecules and cells, how organisms adapt and relate to their environments, the transfer of energy between organisms, together with studying elements of genetics, populations, evolution and ecosystems.

The course lays the groundwork for further study and careers in areas such as biological sciences, animal sciences and medicine.

Find out more at: www.hsfc-ac.org.uk/biology

Entry requirements:

Two GCSE grade 6s in science and grade 5 in maths

Examination board: AQA
Specification: 7401/7402

Business

(Cambridge Technicals Level 3)

Our Level 3 business course is ideal for students who have a genuine interest in the commercial world. You will cover business scenarios such as what it means to work in a commercial environment, understanding customers and the wider world of business, together with facets of business such as marketing and communications.

As you develop your business skills and knowledge, you will complete coursework designed to solidify your understanding and enable you to pursue further study or careers in a related subject.

Entry requirements:

Grade 4 GCSE in business or merit at Level 2 business. If you have not studied business before, you will need a grade 5 in maths and English

Examination board: OCR
Cambridge Technicals
Specification: 05834/05835

Find out more at: www.hsfc-ac.org.uk/business-level-3

Business studies

(A Level and AS)

Business studies at A Level provides students with knowledge about why organisations make the decisions they do, looking at the strategic reasoning for this. You will discover the legal structures that a business can take, the roles of management in an organisation, and how performance is measured and improved. The course will enable you to understand business models and analysis tools, together with finding out about key functional areas such as marketing, operations, finance and HR.

A great course for individuals looking to progress in business management, marketing, administration or operations.

Find out more at: www.hsfc-ac.org.uk/business-a-level

Entry requirements:

Grade 5 in business GCSE. If you have not studied business before, you will need a grade 5 in maths and English

Examination board: WJEC
Specification: B510/A510

Chemistry

(A Level and AS)

The course will develop your interest in and enthusiasm for chemistry, learning about how the world works and the application of science. You will study organic and inorganic chemistry, discovering molecules used for fuels and medicine, finding out how these can be engineered and adapted, learning about elements and compounds and expanding your knowledge of physical chemistry – fundamental laws of nature that govern everything we are.

The course is a mixture of theoretical and practical work, developing your skills and techniques alongside solid base knowledge. Onwards destinations for students at higher education include science-based subjects including medicine, pharmacology and chemical engineering.

Find out more at: www.hsfc-ac.org.uk/chemistry

Entry requirements:

Two GCSEs at grade 6 in science and grade 5 in maths

Examination board: OCR
Specification: H032/H432

Childcare and education – Early Years educator

(CACHE Level 3 Diploma)

Our full-time childcare and education course is equivalent to three A Levels. You will learn the fundamentals working in Early Years education including how children develop through play, health and wellbeing, legislation and how to develop as a professional educator. The course is an interactive blend of classroom learning and work placements with the skills and knowledge gained enabling you to move into careers working with children, family support and early years education.

Together with your on-site learning at Hucknall Sixth Form Centre, you will be required to work or volunteer on a practical placement as an important part of the assessment process.

Find out more at: www.hsfc-ac.org.uk/childcare-and-education

Entry requirements:

You need five GCSEs (or equivalent) at grade 4 or above including English language and maths, and will have an interview with the tutor before being accepted. You are required to undertake a DBS check prior to any placement

Examination board: NCFE CACHE
Specification: 601/3998/5

Computer science

(A Level and AS)

Computer science provides a framework within which you can consider complex problems and apply computational techniques to create effective and efficient solutions. You will learn about computer systems, software and data exchange, together with a practical topic on evaluation of algorithms and developing programming techniques. Contemporary computer science issues such as the legal, moral, cultural and ethical issues associated with computer systems are explored.

The course will enable you to analyse problems and critically evaluate solutions in a changing world. Students can move onto higher education courses relating to computer programming, systems analysis and careers in web development and STEM related industries.

Find out more at: www.hsfc-ac.org.uk/computer-science

Entry requirements:

GCSE at grade 5 in computer science and maths

Examination board: OCR
Specification: H046/H446

Criminology

(Level 3 – applied certificate/diploma)

Criminology focuses on aspects of crime, linking theory with real life case studies – students consider how what we have learned from these cases impacts on individuals and society. You will learn about criminological theory and explanations of why people commit crime, together with exploring the changing public perception of crime and changes in law. Developing your knowledge of the criminal justice system and investigation process, you will also broaden your understanding and opinions of justice, crime, punishment and the agencies involved in these.

An interesting and diverse course, this could lead you to further study or jobs in social sciences and social work, legal professions, psychology or journalism.

Find out more at: www.hsfc-ac.org.uk/criminology

Entry requirements:

GCSE at grade 4 in English and grade 4 in maths or science

Examination board: WJEC
Specification:
601/6249/1 (certificate),
601/6248/X (diploma)

Design – technology graphic products/resistant materials

(A Level and AS)

Students on our design technology course learn key skills and knowledge of manufacturing processes and materials to produce usable and aesthetically pleasing products. You will learn about everyday objects and the technology used to produce them, developing your own individual design and make project. This gives you the opportunity to show off your abilities to meet a brief in an imaginative manner, researching the issue, proposing ideas and manufacturing solutions to a high quality.

An exciting and creative course, design technology can support students who are aspiring to careers in architecture, product design, industrial design and engineering.

Find out more at: www.hsfc-ac.org.uk/design-technology

Entry requirements:

GCSE at grade 5 or above in a relevant subject (resistant materials, graphics or product design)

Examination board: Edexcel
Specification: 8DTO

Design media

(Cambridge Technicals Level 3)

Design media is designed to build on your ICT knowledge and skills to support a continuation of your studies or enter careers in creative digital arts.

The course will develop your understanding through topics such as media products and their audiences, production and planning, and creation of a product. The practical element of the course enables you to develop a product through from audience identification, to legalities associated with product development, through to the creation and deployment of the product. Students also have the opportunity to extend their knowledge in specific areas of the media by choosing additional units from topics such as TV production, media scripting and marketing a product.

Find out more at: www.hsfc-ac.org.uk/digital-media

Entry requirements:

GCSE grade 4 in English. An ICT/computing qualification at grade 4 or above is desirable

Examination board: OCR
Specification: 601/7259/9

Economics

(A Level and AS)

Studying economics will help you to develop an understanding of economic concepts and the theories by considering current economic issues, problems and institutions that affect everyday life. Developing your knowledge of both macroeconomics and microeconomics, you will build an appreciation of the importance and complexity of contemporary economic factors in the local, national and global economy. You will learn about the ways governments measure and correct market failures, together with how performance of an economy can be affected positively and negatively.

The course will allow you to move into further study of this subject and links into courses and careers in fields such as finance, business studies and management, journalism and finance.

Find out more at: www.hsfc-ac.org.uk/economics

Entry requirements:

GCSE grade 5 in economics. If you have not studied economics before, GCSE grade 5 in English and maths

Examination board: WJEC
Specification: B520/A520

Engineering

(Level 3 – foundation technical level)

Studying engineering will give you an understanding of how electrical, electronic and mechanical systems work, applying engineering theory to real-life examples to tackle problem-solving challenges. You will learn about materials, systems and processes and the science behind these, together with deepening your knowledge of engineering disciplines such as design, production and manufacturing.

Combining practical and theoretical learning, this course can lead onto careers and further study in areas such as electronic engineering, mechanical engineering, CAD or into areas such as architecture and systems design.

Find out more at: www.hsfc-ac.org.uk/engineering

Entry requirements:

Level 2 merit in engineering. If you have not studied engineering before, GCSE grade 5 in science, or GCSE grade 5 in maths

Examination board: AQA
Specification: Level 3 foundation

English language

(A Level and AS)

This course will enable you to understand where the English language has come from, how it has changed over time, how we learn it and how it is used. There is the opportunity to discover a variety of fiction and non-fiction texts, with ample opportunity to display your developing creative and imaginative writing skills, enhancing how you use language to persuade, inform, instruct and entertain. The course deepens your understanding of language acquisition and how we communicate across gender, social, occupation and regional variations.

An engaging and exciting course for students looking to follow pathways in media, journalism, law, academia or literature.

Find out more at: www.hsfc-ac.org.uk/english-language

Entry requirements:

GCSE grade 5 in English language

Examination board: AQA
Specification: 7701/7702

English literature

(A Level and AS)

The study of English literature is not just about books – you will study culture, history, human relationships and the history of ideas, alongside how writers use language, form and structure to create interpretations of the world. You will learn about how humans use and exploit language for their own purposes, analyse texts from a political perspective, study Marxism and feminism, together with discovering great works of literature from Shakespeare, Blake, Greene and others.

Students who are looking to study further or consider careers in teaching, law, history, media, literature or journalism should consider this interesting and engaging course.

Find out more at: www.hsfc-ac.org.uk/english-literature

Entry requirements:

GCSE grade 5 in English literature

Examination board: AQA
Specification: 7716/7717

Extended diploma in sport – football

(BTEC Level 3 – extended diploma)

If you have a genuine interest in a career in sport, specifically football, then the extended diploma in sport is a great step on that pathway. This full-time course offers both classroom learning in the key elements of sports, together with time out on the training pitch alongside professional coaches and former top-level footballers to develop new skills and enhance your understanding of the game.

With units ranging from anatomy and physiology, to performance coaching, sports leadership and research and analysis methods, this practical course (equivalent to three A Levels) can lead students into careers such as sports coaching, nutritionist, sports psychology or onto degree level sports qualifications.

Find out more at: www.hsfc-ac.org.uk/extended-diploma-in-sport

Film studies

(A Level and AS)

Our film studies course engages students in the theory of cinema's past, present and future. You will explore the work of the masters of film together with films from modern directors, looking at techniques used to create their vision. Developing an understanding of film texts, analysis and evaluation, you will extend your knowledge of the technical and creative elements of film form, and develop practical skills required to be a filmmaker through short films study/creation and screenwriting.

An ideal course mixing theory and hands-on learning for creative individuals who aspire to careers in media, arts, broadcasting, television and film production.

Find out more at: www.hsfc-ac.org.uk/film-studies

Entry requirements:

Grade 4 or above in GCSE PE or a merit in Level 2 BTEC Sport in addition to two other grade 4s or merits

Examination board:

Pearson

Specification: To be decided

Entry requirements:

GCSE grade 5 in film studies. Whilst a GCSE in film studies is preferable, it is not required

Examination board: WJEC

Specification: Advanced only: 603/1147/2

Finance

(Level 3 – certificate/diploma)

Finance is an interesting subject, especially for students who study business and/or maths. It is ideal for those with an interest in managing their own personal finance and covers elements of personal and business finance, including topics on short-, mid- and long-term financial capability.

Many students who complete this course go onto study finance, business or accounting courses at university, with others going into higher level apprenticeships in accounting, studying towards AAT.

Find out more at: www.hsfc-ac.org.uk/finance

Entry requirements:

GCSE grade 4 in maths, GCSE business grade 4 or BTEC business with a merit. Plus four other GCSEs at grade 4 or equivalent

Examination board: LIBF

Specification:

Certificate – 600/8537/
Diploma – 600/8551

Geography

(A Level and AS)

Geography will allow you to understand and interpret our changing world, considering the complexities of interactions between communities, and the role we have as global citizens. You will study elements of physical geography such as water cycles, coastal systems and hazards to the environment, together with human geography covering global systems and governance, population and the environment, and changing places.

Exciting practical investigations are a crucial and interesting part of the course, with the qualification leading onto a wide range of careers and further study that could be in conservation, politics, teaching, transport and logistics.

Find out more at: www.hsfc-ac.org.uk/geography

Entry requirements:

GCSE at grade 5 in geography

Examination board: AQA

Specification: 7036/ 7037

Health and social care

(Cambridge Technicals Level 3)

Students interested in careers in care, nursing, childcare or early years education would benefit from our health and social care course. You will learn about how to build positive relationships, working in a safe and secure way. Developing your understanding of the science of caring including nutrition, psychology and anatomy, you will develop knowledge of the rights of patients and look at equality and diversity.

You will learn through theory and practical study with opportunities for you to enhance your understanding through visits to local health and social care settings.

Find out more at: www.hsfc-ac.org.uk/health-and-social-care

History

(A Level and AS)

History enables you to develop an understanding of the past and provides you with an overview of change and continuity of human history. You will learn about three key periods in time – Tudor England, Germany between 1918-1945 and the Middle East from 1895-2000. Developing an understanding of their social, historical and political significance, you will also gain skills of analysis and interpretation in an intellectually challenging course.

These key techniques are suited to careers in history, law, journalism, politics and social sciences, to name just a few.

Find out more at: www.hsfc-ac.org.uk/history

Entry requirements:

GCSE grade 4 in English, maths and science

Examination board: OCR
Specification: 601/7060/8

Entry requirements:

GCSE at grade 5 in history

Examination board: AQA
Specification: 7042

ICT

(BTEC Level 3)

The ICT BTEC is ideal for students with an interest in this subject who may wish to go into a related career in the future. You will cover many different and interesting aspects of the IT industry and will be required to grasp key knowledge of the sector. You will also develop your practical skills and ability across a range of interesting and informative projects.

The course allows for creative expression with optional units based around the creative use of ICT, for example games design, web design and graphics.

Find out more at: www.hsfc-ac.org.uk/ict

Entry requirements:

An ICT/computing qualification at grade 4 or above, and a grade 4 in English

Examination board: OCR
Specification: 05839

Mathematics

(A Level and AS)

Maths is a wide-ranging subject that can be used in a number of different education and career pathways. Our course focuses on three main categories – pure maths, mechanics and statistics. Within each of these areas, you will develop a sound understanding of the techniques and principles associated with key elements of maths and how these can be applied.

Students who have completed this course have moved on to study maths at a higher level together with moving into careers in maths, engineering, accountancy and sciences.

Find out more at: www.hsfc-ac.org.uk/mathematics

Entry requirements:

GCSE at grade 6 in maths

Examination board: AQA
Specification: 7356

Mathematics – core

(AS equivalent)

Core mathematics develops maths skills, knowledge and techniques that can be applied on a day-to-day basis in work, study or in real-life context. You will study statistical analysis, finance, risk, estimation and how to use graphs, gradients and exponentials. Your skills in problem solving and communicating solutions will also be enhanced throughout the course.

The qualification leads students into studying maths at a higher level and is useful in all professional career pathways, especially those that rely on maths as an integral part such as sciences, economics, engineering and finance.

Find out more at: www.hsfac.ac.uk/mathematics-core

Entry requirements:

GCSE grade 4 in maths

Examination board: OCR

Specification: Level 3 certificate in quantitative reasoning

Mathematics – further

(A Level and AS)

For students with an interest in enhancing their mathematical skills, further maths is an interesting and appealing course. You will develop abilities to reason logically and recognise incorrect reasoning, to generalise and to construct mathematical proofs, together with enhancing your understanding of maths and mathematical processes.

If you are pursuing engineering, accountancy or science based courses at university, further maths will enrich your skills and open up opportunities in these fields.

Find out more at: www.hsfac.ac.uk/mathematics-further

Entry requirements:

GCSE grade 8 in maths – you must also be taking AS maths

Examination board: AQA

Specification: 7366

Modern foreign languages – French and German

(A Level and AS)

Studying a language supports the development of communication and grammar skills together with an ability to analyse, interpret and evaluate texts and spoken language. Within our French and German courses, you will learn about social issues, culture, politics, grammar and literature, all whilst improving your understanding of the language and practically demonstrating these skills.

This course offer a great pathway into further study in a specific language, and can be an asset in career paths in sectors such as business, politics, education, tourism and travel.

Find out more at: www.hsfac.ac.uk/mfl

Entry requirements:

GCSE at grade 5 or above in the chosen language

Examination board: AQA

Specification: French: AS 7651/ A2 7652
German: AS 7661/ A2 7662

Music

(A Level and AS)

Our music course brings together a number of theoretical and practical skills in a course designed to unleash creativity and develop talent. Together with enhancing your knowledge of musical elements, you will be encouraged to develop writing, composition and performance skills. Alongside this, classroom lessons will underpin your knowledge and cultivate greater understanding of social and historical contexts of music.

Students have moved on from this course to compose and write music at university and beyond, together with pursuing careers in the arts, teaching and journalism.

Find out more at: www.hsfac.ac.uk/music

Entry requirements:

GCSE at grade 5 in music and instrumental/vocal skills to grade 5 standard

Examination board: Edexcel
Specification: 8MU0/ 9MU0

Performing arts - acting

(BTEC Level 3 – extended certificate)

A practical and creative qualification, the performing arts course allows you to show your creative flair for acting, together with giving you the tools, techniques and theory to better your understanding of the subject. You will discover the works of key practitioners and why they are so important, develop core physical and vocal skills for live performance, work in groups to devise original pieces, and interpret and update classic performance texts.

The course prepares you to move onto pathways following acting, theatre, media, television and journalism.

Find out more at: www.hsfc-ac.org.uk/performing-arts-acting

Entry requirements:

GCSE grade 4 in drama.
For students who have not studied GCSE drama, you will need a grade 4 or above in English

Examination board: Edexcel
Specification: To be decided

Photography

(A Level and AS)

Photography is a popular course with students who want to extend their knowledge of different art forms. You will have the opportunity to develop a wide range of photographic skills such as experimental image making, studio, location and digital. You will also produce a portfolio of practical work that shows a wide range of high quality images that you have created.

Future pathways and careers include professional photography, art and design, web development, media and journalism.

Find out more at: www.hsfc-ac.org.uk/photography

Entry requirements:

GCSE at grade 4 in art or photography. If you have not studied art or photography at GCSE, you will need a portfolio for our staff to assess suitability for the course

Examination board: AQA
Specification: 7246/ 7206

Physical education

(A Level and AS)

The course encourages you to immerse yourself in the world of sports and physical education, providing performance and coaching opportunities, and delves into the how and why of physical activity and sport, including exploring the role of technology in sport. You will develop a range of practical skills, such as communication, coaching, dealing with pressure, decision-making, and analysing and evaluating performance.

This immersive course leads students onto pathways in sport, physiology, physiotherapy, coaching and management, and sports education.

Find out more at: www.hsfc-ac.org.uk/physical-education

Entry requirements:

GCSE at grade 5 in physical education. This must include a 5 in the theory exam

Examination board: OCR
Specification: H155/ H555

Physics

(A Level and AS)

This course will challenge you intellectually, and you will take an active role in the consideration of phenomena and the physical world around us. You will become more adept at problem solving and showing analytical skills, and enjoy learning the subject using a range of methods and techniques. A mixture of theory and practical skills will enhance your understanding as you look at topics such as particles and radiation, mechanics and materials, nuclear physics, electricity and fields.

The course will develop your interest in and enthusiasm for the subject, and open up routes to further study and careers associated with physics.

Find out more at: www.hsfc-ac.org.uk/physics

Entry requirements:

Two GCSEs at grade 6 in science and grade 6 in maths

Examination board: AQA
Specification: 7407/ 7408

Politics

(A Level and AS)

Our popular politics course develops your understanding of the state of UK government and politics, delving into democracy, electoral systems, political parties and ideologies, structure of government and exploring political ideas such as nationalism or anarchism. You will also study of politics in the USA and how their structures and processes compare. There is an emphasis on debate, discussion and argument, all designed to enable you to make clear and valid assertions about our society.

Pathways from this demanding course include politics, international relations, government, broadcasting, journalism and research.

Find out more at: www.hsfc-ac.org.uk/politics

Entry requirements:

GCSE at grade 5 in history.
For students who have not studied history, you will need a grade 5 in English

Examination board: Edexcel
Specification: 9PLO

Psychology

(A Level and AS)

If you are interested in people and human behaviour then psychology is for you. It enables you to develop a sound understanding of leading approaches and key research areas in the science of mind and behaviour.

During the course you will examine a wide range of theories, experiments and case study evidence. You will also develop your communication, analysis, interpretation and evaluation skills. Techniques and skills developed through studying psychology can be applied across a wide range of pathways including arts, social sciences and traditional sciences, leading to careers in psychology, law, medicine, nursing, teaching and journalism.

Find out more at: www.hsfc-ac.org.uk/psychology

Entry requirements:

GCSE at grade 5 in science and grade 4 in English and maths

Examination board: AQA
Specification: 7181/ 7182

Religious studies – philosophy and ethics

(A Level and AS)

Religious studies is beneficial to those who want to debate and discuss religious issues from a variety of perspectives, including non-religious viewpoints. You will develop your knowledge about the philosophy of religion and debate the existence of God, look at the impact of religion around the world, how the ethics of religion affect society, and how religious thought has developed and changed throughout history.

The skills gained are valuable for a range of careers and further education courses, including clergy, teaching, politics, law, medicine and social services.

Find out more at: www.hsfc-ac.org.uk/religious-studies

Entry requirements:

GCSE grade 5 in religious studies, or philosophy and/or ethics

Examination board: OCR
Specification: H173/ H573

Sociology

(A Level and AS)

The study of sociology will enable you to develop your understanding of society in a disciplined way. The course covers issues that shape how our society functions, is governed and how this affects both individuals and groups of people. You will learn about the relationship of family to social structure and change, the role and function of education alongside class and the economy, together with topics on beliefs, crime and religion.

An interesting and engaging course, future pathways and careers include law, social and public services, prison and rehabilitation work, and roles within the criminal justice system.

Find out more at: www.hsfc-ac.org.uk/sociology

Entry requirements:

GCSE grade 5 in English

Examination board: AQA
Specification: 7192

Sport (BTEC Level 3)

BTEC Sport is designed for students who wish to progress into a career in sport or undertake further study in this area. The course develops your knowledge and skills in sporting areas such as anatomy and physiology, fitness training and programming, healthy lifestyles, professional sporting development and fitness testing. You will develop knowledge of how to apply your learning to real-life scenarios.

The course mixes theory and practical sessions and allows you to research and formulate your own conclusions, ideas and opinions on sporting topics.

Find out more at: www.hsfc-ac.org.uk/sport

Uniformed protective services (BTEC Level 3)

Throughout the two-year course you will cover a wide variety of units to build understanding of the role of uniformed protective services. You will extend your understanding of how government and policies inform the role of our protective services, the impact of war, conflict and terrorism, and what citizenship and diversity means to our society. Skills such as leadership and teamwork will be developed throughout the course, with a focus on physical preparation for careers in this sector.

This course is directed at students interested in law or criminal psychology, and/or who have an interest in a career in the uniformed protective services.

Find out more at: www.hsfc-ac.org.uk/uniformed-protective-services

Entry requirements:

GCSE grade 4 in physical education or BTEC sport Level 2 merit grade, with a keen interest in sport

Examination board: Edexcel
Specification: BTEC Level 3 National Extended Certificate in Sport (360 GLH) 601/721

Entry requirements:

Five GCSEs at grade 4 and above, including English

Examination board: Edexcel
Specification: 500/7862/8

HOW TO APPLY

Entry requirements

In order to study four Level 3 qualifications in year 12, we expect students to have achieved a minimum of three grade 6 and two grade 4 qualifications at GCSE in subjects relevant to their choices at sixth form.

Application process

Once you have decided that the Hucknall Sixth Form Centre is the right place for you, you will need to complete an application form. If you are a current student at either National Church of England Academy, The Holgate Academy or Queen Elizabeth's Academy, you can get one of these forms from your head of sixth form.

If you have been in a school or academy elsewhere, please contact a member of our centre staff on 0115 9681657 to discuss the process and any questions you may have.

If you are looking for a place to begin in September 2020, we will need your completed application form by 6 December 2019. Late applications are accepted, however students that apply late may not be able to select their preferred courses.

Late Y10/early Y11

- Research your options for post-16 and sixth form study
- Discover and visit the Hucknall Sixth Form Centre
- Meet our team and hear from current students

By 6 December 2019

- Decide Hucknall is the sixth form for you
- Get in touch if you have any queries
- Complete and submit your application

After you apply

- Attend an interview with a member of the sixth form leadership team
- Discuss your aims and we will check your suitability for the course(s)

Next steps

- If successful, we will offer you a place subject to successful GCSE results
- Attend induction day

September 2020

- Start your course, expand your learning and make new friends
- Meet your personal tutor
- Get involved in a range of extracurricular activities

FIND OUT MORE

The next step in your education is a big one, and a decision that can ultimately shape how your career or further studies will go. Hucknall Sixth Form Centre has a team of expert and experienced staff, who will ensure that you make an informed decision about the route you want to take and make appropriate course selections.

To find out more, call us on **0115 9681657** and you will be connected one of our sixth form team to discuss your future and how we can support your aspirations.

If you are a current student at National Church of England Academy, Mrs Wall will be your point of contact for a discussion about transition to the Hucknall Sixth Form Centre. Students currently at The Holgate Academy should speak with Miss Elliot about your options. Students from Queen Elizabeth's Academy need to speak with Miss Hall. Students who do not currently attend one of our partner academies are very welcome to continue their studies with us, and our staff team would be delighted to discuss with you either on the phone or in person at the centre.

Come and meet us

One of the best ways to find out if Hucknall Sixth Form Centre is for you is to come and visit us. We love to meet potential students and to see how we can support you to continue your education.

Open days

Throughout the year we will be holding open days for students who are looking to continue their studies in a further education setting. Keep an eye on the Hucknall Sixth Form website www.hsfc-ac.org.uk for details of when you can come and find out all about what we can offer.

Arrange a visit

We offer tours of the facilities and give you the chance to speak with staff about your future goals. To arrange a visit, call us to arrange a suitable time to come and find out more.

Diverse Academies Learning Partnership

National Church of England Academy, The Holgate Academy and Queen Elizabeth's Academy are part of Diverse Academies – a group of academies committed to the development and improvement of schools through collaboration and partnership. Our core focus is the achievement and development of each individual student. We have an established framework of core principles and practice to which all academies subscribe, whilst maintaining and developing each academy's unique identity and individual characteristics.

HOW TO FIND US

How to find us

- Hucknall Sixth Form Centre
- National Church of England Academy
- The Holgate Academy
- Queen Elizabeth's Academy
- Train station
- Tram station

Transport and travel to the centre

Bus

There are a number of public bus services that service Hucknall, with Trent Barton bus stops just a short walk from the centre (less than 1 mile) on both their Hucknall Connect Blue and Green routes. The Trent Barton 'Threes' service also runs between

Nottingham and Mansfield in both directions, with the Vine Terrace stop almost on the doorstep of the Hucknall Sixth Form Centre.

Train and tram

Hucknall station, also formerly known as Hucknall Byron station, is the nearest railway station and tram stop, and a great way to access the centre. The station is just one mile from the Hucknall Sixth Form Centre, taking approximately 10 minutes to walk.

Road

For students wishing to drive to Hucknall Sixth Form Centre, the postcode for any sat nav device is NG15 7HA. The car park is situated at the rear of the building, and can only be accessed via Duke Street.
